**Maximizes freshness**

Extends shelf life by

**2 DAYS**

Drain Shelf

Texture grip

**CamSquares®  
Classic vs. FreshPro**

**Market Research Feedback**

- Colour lids shrink, difficult to work
- Translucent lids are difficult to match to the container
- No colour coding of lids and graduations on PC Squares
- No handles for handling hot liquids on 1.9Ltr, 3.8Ltr, 5.7Ltr and 7.6Ltr sizes
- Wet Stack health department issue
- Classic CamSquares® is the industry gold standard
- “Cult-like” following
- Storage containers are known as “Cambros”
- Chefs love Cambro durability & reliability
- Many knockoffs/import imposters get substituted and can cause confusion

**Classic & FreshPro Series are priced the same covers are not interchangeable**

- Improved seal cover design, easy on, perfect fit for extended shelf life. Helps reduce food waste
- Rounded & Textured Corners for Safer Ergonomic Handling
- Comfort Grip “recessed handles” (safe for handling hot liquids) provides up to 25% space savings on the 11.4Ltr, 17.2Ltr and 20.8Ltr sizes
- Matching Drains, Graduations and Covers. Colour coded system makes for efficient organisation
- Cross Stack Design allows airflow and drying
- Recessed Handles “All Sizes” in CW Clear Polycarbonate range. (from 1.9Ltr to 20.8Ltr sizes)

**POOR EXAMPLES OF FOOD STORAGE**

- Ice cream style containers can survive a limited number of commercial washes before having to be disposed meaning costly repeat purchases.
- Cling film is terrible for the environment. It is an expensive single use product that doesn't act as a proper sealed lid.
- CAMBRO is made of tough polycarbonate. Designed to be used over and over again.

**Maximizes Freshness**

Extends shelf life by

**2 DAYS**

Drain Shelf

**Strawberry Shelf Life (in days)**

Your greens deserves a full life. Your profits would agree. See how Cambro can double the life of your produce.
