Texture and colour on a vitrified high alumina porcelain body

Pebble	41
Coast	44
Granite	46
Crème	47
Onyx	49
Product Care	50

We are pleased to introduce three NEW collections to our beautiful Artisan tableware; Tempest, Heligan and Lagoon.

In an industry where the tableware in which food and beverage served are almost as important as its taste and quality, choosing the right look and feel is vital. We have introduced these new collections to ensure that Artisan offers an even wider range of colours and textures and reflects the very latest trends in tabletop styles and presentation.

Artisan tableware is known for combining shape, texture and colour in a way that elevates and enhances any dining experience. Inspired by studio pottery and combining genuine vitrified stoneware with high alumina porcelain, Artisan offers something unique. It combines the look of a hand-crafted product with the strength, consistency and durability of tableware produced by truly world class manufacturing processes. This ensures that Artisan is every bit as practical as it is beautiful whilst offering exceptional value for money.

ARTISAN - PERFECTLY CRAFTED

TEMPEST COLLECTION

TEMPEST COLLECTION

Tempest combines our new innovative flatware shape and multifunctional bowls with the deep beauty of the Tempest glaze; an inky blue reactive glaze that is semi-matt dotted with gloss and a deep russet brown edge. Contrast is vital in creating the perfect plating, Tempest delivers contrast with style.

HELIGAN COLLECTION

HELIGAN COLLECTION

A meadow green glaze that reacts during firing to produce highlights of lilacs and turquoise, the Heligan collection brings nature to the table. Perfectly suited for the local pub, busy restaurant or fine dining, the durability of fully vitrified stoneware combined with innovation in shape, texture and colour is perfect for any dish.

LAGOON COLLECTION

LAGOON COLLECTION

Using our Artisan classic shapes and the ultra-durable high alumina vitrified porcelain body, Artisan Lagoon is our most dramatic look yet. With each unique piece delivering high gloss colours varying from Ochre sandy tones to shimmering blue, which we contrast with a semi-matt neutral exterior – the result is a beautiful, crafted look perfect for food in any setting.

ANDROMEDA COLLECTION

ANDROMEDA COLLECTION

The endless Cornish night skies inspired the use of the Andromeda reactive glaze. A semi matt shimmering black glaze, which subtly varies with shades of petrol blue and granite flecks.

Combining a glaze that gives wonderful contrast to your food with fine coupe shapes opens up a world of dramatic food presentation.

SERENE COLLECTION

SERENE COLLECTION

With a natural and calm tone, the Serene collection of genuine vitrified stoneware from Artisan captures the essence of rustic tableware with more than a hint of elegance. Satin finish glaze in pale sage and with reactive rust flecks, Serene provides a background that compliments rather than fights your presentation.

SHORE COLLECTION

SHORE COLLECTION

The dramatic coastline of Cornwall and miles of sandy beaches gave rise to the Artisan Shore collection. Produced in the highest quality vitrified stoneware, Shore has a satin finished warm cream base colour with a dense mineral reactive speckle. Each piece is unique, and natural variations in the finish ensures it does not feel mass produced.

ELM COLLECTION

Genuine stoneware has a unique feel of being hand crafted and artisanal. The Elm collection uses this to great effect, combining a Scandinavian inspired shape with colour and texture. Elm interiors are a rich sage green with a reactive speckle creating variations in every piece. Add the warm grey matt exterior, innovative stacking shapes and you have the perfect modern look.

PRODUCT CARE

STACKING

- Stack items vertically
- Avoid one item sliding or rubbing against another

CHIPPING

The vast majority of Artisan Classic (all plates, bowls, oval dishes, saucers, cups and mugs) are covered by a lifetime edge chip warranty but it's important to follow these basic guidelines:

- Always handle with care – careless or rough handling causes breakages
- Never scrape the product against a bin or receptacle

IN THE DISHWASHER

- Rinse thoroughly after use, before loading into a dishwasher
- Wash separately from other items like glassware, cutlery and cooking equipment
- Follow the dishwasher manufacturer guidelines for type and amount of detergent to use
- Keep the dishwasher fully serviced and clean as per manufacturer guidelines
- If metal marks do appear on Artisan items, clean with a porcelain cleanser. Check cutlery to ensure there no rough edges
- Wash metal surfaces with water & vinegar to remove any particles which could be transferred.

IMPRESSIONS COLLECTION

Cerne

Inspired by the desire to re-imagine the simplest of tableware designs (the round plate) 'Cerne' is the French word for circle. When viewed from above the 'Cerne' shape appears to be entirely conventional but when viewed in profile the radical nature of its design is revealed.

BH892 Cerne Plate 31cm Case Qty 6

Carré

Convention dictates that plates should be round. But like all great artists Crème is happy to defy convention and 'Carré' (which means square in French) demonstrates that there are other ways to perfectly balance form and function when presenting food.

BH890 Carré Plate 27cm x 27cm Case Qty 6

Écharde

Some art reassures, but truly great art is challenging. 'Écharde' took as its inspiration a desire to look at the design of a plate from (quite literally) a number of different angles. Named after the French word for splinter 'Écharde' plays with conventional perspective and ultimately will place a completely different perspective on the food you present.

BH891 Écharde Plate 31cm x 19cm Case Qty 6

Futuriste

Some art looks unashamedly to the future and tries to imagine a different reality. The 'Futuriste' plate is a bold re-imagining of a conventional theme and offers the perfect solution where chefs want to present their own new vision of a classic dish free from the constraints of history.

BH889 Futuriste Plate 34cm x 18cm Case Qty 6

THE QUALITY OF CRÈME

MATERIALS AND MANUFACTURING

- Fully Vitrified, High Alumina Fine Porcelain - Crème is a high alumina content, fully vitrified fine porcelain. Using only the highest grade European materials to formulate the world class ceramic body enables the design and production of fine, elegant shapes whilst maintaining durability and strength.
- Colour - The colour of a plate makes a world of difference to the presentation of the dish. Crème is designed with the most immaculate pale ivory colour as the perfect background to every dish.
- World Class Glaze - Using the most advance glazing processes, the glaze is a class leader for appearance and durability which gives Crème a high resistance to metal marking, scratching and dishwasher attack.
- Face Profiles & Stackability - Designed to stack and manufactured using the latest forming technology, Crème boasts an incredible shape uniformity with perfectly flat centres and sharp definition of shapes meaning no humped centres or whirly bases, and no inconsistent stacking gaps.
- Diamond Polished Foot - Different ceramics have different feet. Crème takes every piece and carefully diamond polishes every foot for a consistently smooth finish.

QUALITY MANAGEMENT

- Exclusively manufactured in a world-class facility that has been awarded ISO9001 for quality management.
- The factory utilises the latest forming, finishing and firing technology to guarantee consistency, efficiency and effective environmental control throughout every process.
- Holding certification for Corporate Social Responsibility to SA8000, the care and well being of the employees & their families is of the utmost importance.
- The factory also holds certification for Environmental Management ISO14000.
- In comparing to the world's best alternative brands, Crème exceeds the very highest standards in the market place. Independent testing results are available upon request.

PRODUCT CARE – HOW TO GET THE BEST FROM YOUR CRÈME TABLEWARE

STACKING

- Stack items vertically
- Avoid one item sliding or rubbing against another

CHIPPING

The vast majority of Crème products (all plates, bowls, oval dishes, saucers, cups and mugs) are covered by a lifetime edge chip warranty but it's important to follow these basic guidelines:

- Always handle with care – careless or rough handling causes breakages
- Never scrape the product against a bin or receptacle

IN THE DISHWASHER

- Rinse thoroughly after use, before loading into a dishwasher
- Wash separately from other items like glassware, cutlery and cooking equipment
- Follow the dishwasher manufacturer guidelines for type and amount of detergent to use
- Keep the dishwasher fully serviced and clean as per manufacturer guidelines
- If metal marks do appear on Crème items, clean with a porcelain cleanser. Check cutlery to ensure there no rough edges
- Wash metal surfaces with water & vinegar to remove any particles which could be transferred.

THE QUALITY OF ARIANE

CREATING A TRUE WHITE PORCELAIN

There is a reason why hard paste porcelain is called 'True Porcelain'. True Porcelain is only made by real craftsmen, those who have the ability to combine the science with the art.

Often imitated; true porcelain is the ultimate ceramic material; more dense, harder, stronger, and more durable. From its Chinese origins, through the master potters of France and Germany it has been the tableware of choice for those who can afford real luxury.

A tour across the finest restaurants of the world will, time after time, show wonderful gastronomy displayed to its very best advantage on true porcelain.

The finest, purest materials, the highest firing temperatures, minute control of atmospheric conditions are what make true porcelain a rare commodity. The end result is incredible finesse, the purest white and the ability to produce stunning shapes.

MATERIALS

- Ariane uses only the purest China Clays and China Stone
- Free from artificial fluxes and fillers
- High firing temperatures to fuse the clays into a dense, highly durable, pure white porcelain
- Highest grade alumina to bring a unique level of durability
- Finest European material along with a level of quality testing and control rare in the tableware industry
- High quality, lead free glaze finish

MANUFACTURING

- Manufactured using all the latest equipment and kilns
- Firing: First Firing (Biscuit/Bisque) at 1000°C to get a dry, porous blank ready for glazing. Second Firing (Glost/ Grand Feu) at over 1400°C. Exact control of the oxygen content in the glost kiln is crucial to developing the colour and vitrifying the porcelain perfectly.
- Forming: Ariane utilises the latest techniques – isostatic pressing, high pressure casting, new generation cup/mug forming machines
- Glazing: The latest German automated glaze dipping cell
- Finishing: Ariane is foot polished using a diamond polishing machine for a glassy finish

QUALITY MANAGEMENT

- Exclusively manufactured in a world-class facility that has been awarded ISO9001 for quality management,
- The factory utilises the latest forming, finishing and firing technology to guarantee consistency, efficiency and effective environmental control throughout every process.
- Continuous and rigorous testing at every stage throughout the process
- 100% inspections by staff dedicated to the elimination of faults
- Holding certification for Corporate Social Responsibility to SA8000, the care and well being of the employees & their families is of the utmost importance.
- The factory also holds certification for Environmental Management ISO14000.

PRODUCT CARE - HOW TO GET THE BEST FROM ARIANE TABLEWARE

STACKING

- Stack items vertically
- Avoid one item sliding or rubbing against another

CHIPPING

The vast majority of Ariane (all plates, bowls, oval dishes, saucers, cups and mugs) are covered by a lifetime edge chip warranty but it's important to follow these basic guidelines:

- Always handle with care – careless or rough handling causes breakages
- Never scrape the product against a bin or receptacle

IN THE DISHWASHER

- Rinse thoroughly after use, before loading into a dishwasher
- Wash separately from other items like glassware, cutlery and cooking equipment
- Follow the dishwasher manufacturer guidelines for type and amount of detergent to use
- Keep the dishwasher fully serviced and clean as per manufacturer guidelines
- If metal marks do appear on Ariane items, clean with a porcelain cleanser. Check cutlery to ensure there no rough edges
- Wash metal surfaces with water & vinegar to remove any particles which could be transferred.

phi

DESIGN CONCEPT - PHI

Dynamic and angular to create a premium and modern aesthetic. Symmetrical tapering from the sloped handle to the slim neck of each individual piece provides a highly stylised collection.

NEW

GLACIAL

We are pleased to launch our NEW glassware brand - the Glacial Eco range!

A range that is made from 100% locally sourced recycled bottles without any additives in the manufacturing process.

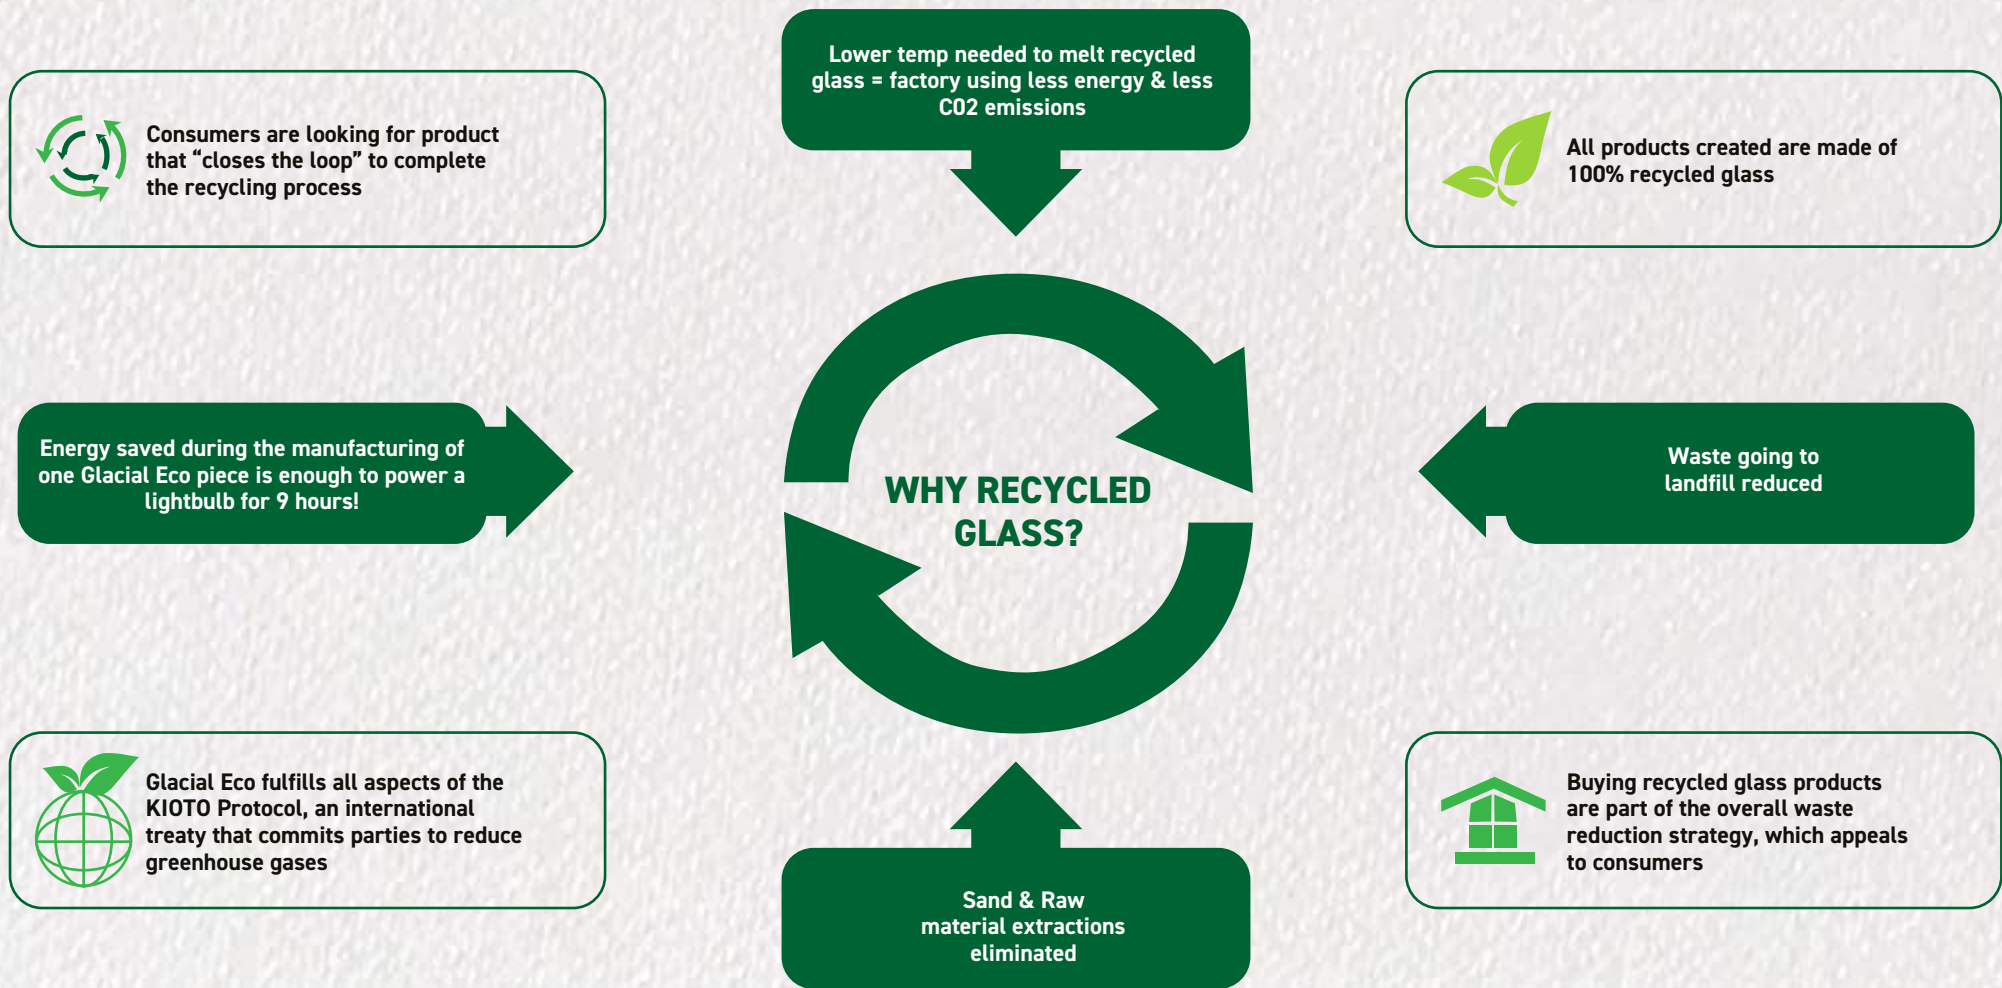

Glacial Eco is a unique glassware collection combining elegant designs with attractive textures to create stylish tumblers, cocktail glasses, jugs, carafes, dessert glasses and oil bottles. These glasses are skilfully made from recycled glass for a unique and tactile finish. Glacial Eco is a testament to the fact that design, style and quality are perfectly possible to achieve by using 100% recycled glass. Not only that, our new glassware eco range is competitively priced too, making it the perfect affordable sustainable glassware solution.

The manufacturing process for Glacial Eco uses a lower temperature than traditional glass manufacturing, reducing the amount of natural gas that is needed to produce the product. Residues going to landfills are dramatically reduced and extractions of sand and raw materials are minimised. Glacial Eco complies with all the key requirements of the Kyoto Protocol and international treaties that commit parties to reducing greenhouse gases

Welcome to our New Glacial Eco range - A glassware brand that is high on quality, stylish and doesn't cost the earth.

Why Recycled Glass?

Did you Know?

The saved energy in recycling three bottles is enough to charge a smartphone battery for a year, maintain a low consumption light bulb on for nine days and it is equivalent to the energy needed for three cycles of a washing machine.

PODIUM

ELEVATING BUFFET PRESENTATION

WELCOME

ELEVATING BUFFET PRESENTATION

Welcome to our NEW Buffet brand - PODIUM

Created in collaboration with experts, PODIUM is a modular display solution that provides more flexibility than ever when it comes to creating beautiful displays.

PODIUM is a range of high quality products manufactured in the UK from Sustainable FSC Certified European Prime Oak.

Within a demanding hospitality and catering environment, creating eye catching buffet displays can be especially daunting. PODIUM being a modular display solution comprising; Trolleys, Trays, Box Risers, Bread Bins, Tea Chests and Buffet Trolleys makes it an easy process to build your buffet display. The system of modular interchangeable stackable components offers great versatility in tailoring your displays making it easy to switch from a breakfast presentation with breads and pastries, to a hot display of main courses for a lunch service.

These intelligently designed PODIUM products enable operators in the catering and hospitality industry to optimise food and beverage presentations; by providing easy display solutions allowing for multiple configuration options.

PODIUM is a perfectly tailored solution; from tea-coffee stations or pop-up island bars to room service. Whether used in board rooms, conference facilities, hotels, restaurants or even spas, our new PODIUM range offers great flexibility to present food and drink displays, elevating your buffet presentation.

The display possibilities are endless with Podium.

TROLLEYS

Podium trolleys offer multiple configuration options. The presentation surfaces can be extended to tailor your F & B presentation needs. You can maximise the surface utility with additional accessories, including inserts, boxes, tea chests and trays. With shelves and a folding surface design, each trolley offers an adaptable display solution for both single - and double-sided service. The trolleys come in four beautiful colours: Black, Grey, Dark Brown and Natural.

Please note that the Podium Boxes, Inserts and Trays are designed in a way to slot in perfectly to these trolleys. The size guide will help you in making decisions: See Page 148

BOX INSERTS

The Podium box inserts are intelligently designed to allow a myriad of variations and combinations to your unique display needs. Inserts can be added or removed based on how you wish to tailor your display and can also be used for single serves.

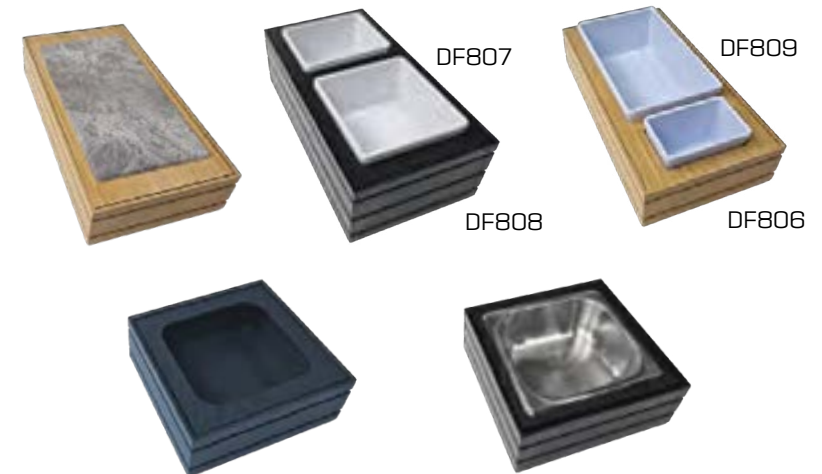

Inserts

Natural	Grey	Brown	Black	Compatibility
DN435NA	DN435GY	DN435BR	DN435BK	Insert B1/3 to GN1/3
DN436NA	DN436GY	DN436BR	DN436BK	B1/6 to GN1/6
DN437NA	DN437GY	DN437BR	DN437BK	B1/3 to GN1/3 Platter
DN438NA	DN438GY	DN438BR	DN438BK	B1/3 to fit DF806 + DF809
DN439NA	DN439GY	DN439BR	DN439BK	B1/3 to fit DF807 + DF808

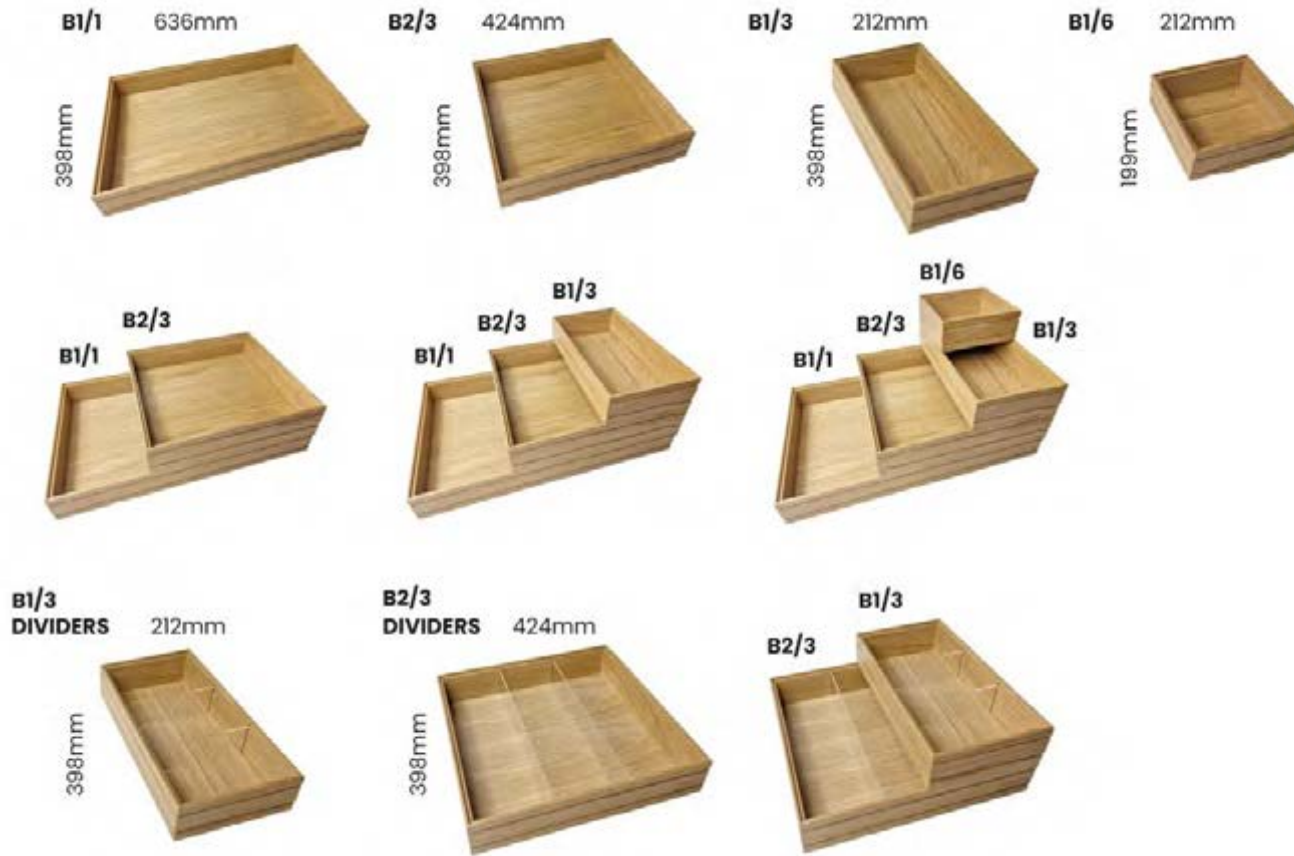

Please note: Select the appropriate depth box; Crocs require 120mm deep boxes, 65mm GN's require 80mm boxes for example

Our Mirage Crocs will fit in beautifully with the Podium inserts. (Available in various colours; White, Black, Grey Speckle) To see all Mirage crocs sizes, pls visit www.lockhart.co.uk/mirage

CONCEPTS

Podium Box Concepts

Available in 40mm, 80mm and 120mm depths and 4 colours; Natural, Grey, Dark Brown and Black.

BUTLER TRAYS

Podium Butler Trays are perfect for room service. Integrating with the Podium range of trolleys they nest neatly into the trolley shelves for secure transport. Podium Butler trays are also stackable enabling multi service when stacking 80mm deep trays.

Rib Handle Tray 2/3 - 424 x 398mm

BREAD BIN & TEA CHEST

The Podium bread boxes are designed for the covered presentation of bread and other bakery items, to keep them hygienic and fresh, and can be slotted onto the top of the trolley.
Available in four colours - Black, Grey, Dark Brown and Natural.

Bread Bins 1/3

Natural	Grey	Brown	Black	Dimensions
DN440NA	DN440GY	DN440BR	DN440BK	398 x 212 x 312mm

Tea Chest - 2 Drawers

Natural	Grey	Brown	Black	Dimensions
DN442NA	DN442GY	DN442BR	DN442BK	B1/3 - 398 x 212 x 244mm
DN441NA	DN441GY	DN441BR	DN441BK	B2/3 - 424 x 398 x 244mm

Designed to offer greater storage capacity and easy to replenish, the Podium tea chests are ideal for organising different flavoured tea bags. The tea chests are available in four colours to match the trolley colour of your choice.

BUFFET TROLLEY

Podium buffet trolleys are ideal for front-of-house applications. Designed so that components, such as gastronorm pans, crocs and bowls, sit securely in the trolley, they are truly customisable to your needs. The trolley sits on four sturdy swivel castors, offering smooth manoeuvring.

Shelves are reversible with a lower lip on one side, allowing for bread bin and tea chest draws to still open

Trays positions can be adjusted to horizontal or angled.

M MIDAS

THE PERFECT FINISHING TOUCH

MIDAS

THE PERFECT FINISHING TOUCH

We are excited to present our new metallic table service brand – Midas. Midas is a modern, stylish and sophisticated way of presenting side dishes to wow customers and leave a lasting impact.

Midas consists of beautiful, metallic-coloured serving & sauce cups, plates, baskets & buckets. The range comes in a number of finishes to add a touch of quirkiness to any presentation. Whether you're looking for a perfect gastropub aesthetic or a vintage industrial look, the Midas table service range is a great alternative to ceramic and offers a unique way to present food and drink that is full of personality.

With Midas, adding fun, colour and personality is easy!

HOW TO USE YOUR BUILD SYSTEM

Step 1

LAY THE FOUNDATIONS

Base unit includes a 1/1 GN Riser which is required for full integration with the rest of the Build range.

Step 2

ADD HEIGHT

The Build range offers a variety of risers in convenient GN sizes. These can be added to create different levels of display options.

Step 3

GET CREATIVE

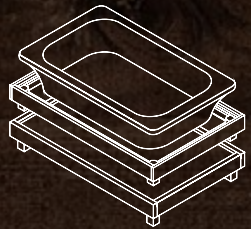

Various display units can be positioned on top of the risers to complete your displays. These include Fusion boards, Crème Galerie Gastronom, Mirage platters and Rafters display blocks & crates.

Step 4

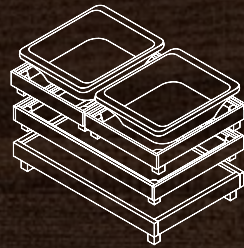

ENDLESS POSSIBILITIES

See below for more inspiration on how the Build system can mix and match with various components to create customised buffet displays.

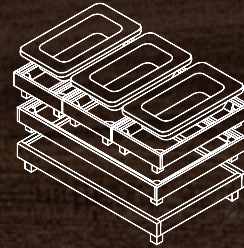

1/1 GN Riser

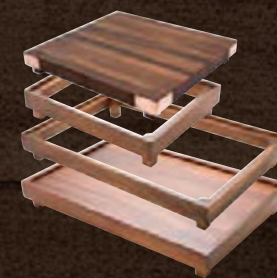

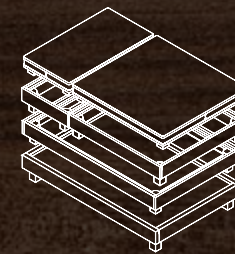

1/2 GN Riser

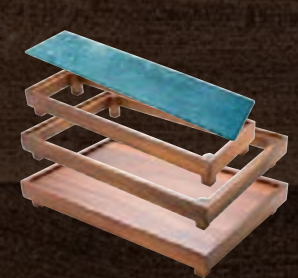

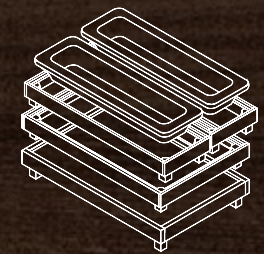

1/3 GN Riser

2/3 GN Riser

2/4 GN Riser

FULLY COMPATIBLE

Use Crème Galerie Gastronom dishes and platters, Mirage Gastronom platters, Fusion Copper Corner Boards and any other GN pieces to add style and variation to your display.

MIRAGE

SEEING IS BELIEVING

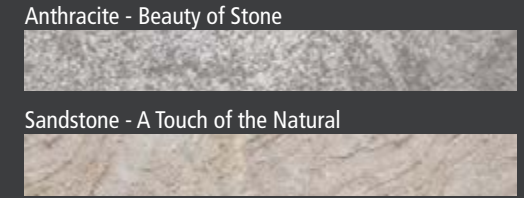

Mirage is an exclusive collection of melamine products designed to provide a stylish and practical solution for food presentation and display. Offering an innovative combination of shapes, textures and vibrant colours, Mirage is the perfect choice for any buffet or counter display.

Manufactured from shatterproof 100% melamine, Mirage is highly durable with excellent levels of impact resistance and its scratch resistant surface is dishwasher safe; making it ideal for any catering or hospitality environment. This durability also makes Mirage an effective long-term investment, providing a cost effective solution without the need to compromise on style or quality.

NEW RELAUNCHED

BRIGADE

CHEF CLOTHING

BRIGADE

CHEF CLOTHING

We are excited to relaunch our Chef's Clothing range, Brigade.

We understand the importance of the right workwear for long hours spent working in a busy kitchen or front-of-house environment. With that in mind, we have redesigned the entire range of Brigade Chef's Clothing to ensure comfort, confidence and professionalism.

Made from durable lightweight fabrics, the NEW Brigade range offers outstanding quality and consistency. Each piece is designed to project a professional image and to ensure the wearer feels confident in the performance of their workwear.

And here's the best part: the Brigade collection offers amazing value for money. So, you can choose comfort, quality and style while staying within your budget.

Get more for less... that's the essence of Brigade.

Cool, comfortable and confident.

Welcome to our new range of Chef's Clothing from Brigade.

SCALES

01

02

Ultra slim electronic scale with easy-to-read LCD display and stainless steel disc platform. Weigh directly onto platform or use with a bowl. Features include liquid measure function, and add and weigh zero facility. Available in black or white colourway.

03

Heavy duty construction platform scales are designed to use in harsh and wet kitchen environment.

- Removable platform for easy cleaning
- Wipe clean splash proof fascia
- Digital dual readout back and front
- Switchable between metric or imperial
- Touch button controls

Battery or Mains operated (An Adaptor and 2 x 1.5V type D batteries included). Please DO NOT use both. Scales are not government stamped for retail food sales.

Platform Scales

- 01 EF098 Disc Platform Scale - Black, 5kg x 1g/11lb x 1/8oz, 5,000ml x 1ml/175fl oz x 1/8fl oz
- 02 EF097 Disc Platform Scale - White, 5kg x 1g/11lb x 1/8oz, 5,000ml x 1ml/175fl oz x 1/8fl oz
- 03 EF232 Platform Scale - 3kg x 1g (6lb x 0.1oz)
- 03 EF233 Platform Scale - 15kg x 5g (33lb x 0.2oz)
- 03 EF234 Spare adaptor for EF232 & EF233
- 04 EF231 Platform Scale - 5kg x 1g/11lb x 1/8oz, 5,000ml x 1ml/175fl oz x 1/8fl oz
- 05 EF227 Scale with Stainless Steel Bowl, 5kg x 20g (11lb x 1oz)
- 06 EF230 Platform Scale - White, 20kg x 50g (44lb x 2oz)

04

Electronic scale, suitable for weighing dry or liquid ingredients in both metric and imperial. Weigh directly onto platform or use with a bowl. Features include easy-to-read LCD display, liquid measure function and add and weigh 'zero' facility.

TEFLON PROFILE ALUMINIUM NON-STICK PANS

Teflon's highest grade non-stick coating designed for ambitious professionals

- Significantly improved abrasion resistance
- Superb nonstick performance
- Maximum continuous in use temperature: 260°C on all surfaces
- Allows the use of metal utensils

Unique Technology - patent pending -

An important ingredient in the skin technology is Silicon Carbide (SiC), which is well known in nature for its strength. We used chemically synthesized SiC particles to achieve a hardness that is almost equal to diamonds. In the Teflon Profile Midcoat, the SiC particles aggregate into little clusters, forming the innovative surface texture that gives the nonstick coating and scratch resistance.
