

# FROTHING JAR™

**blendtec**  
COMMERCIAL 2019

## BUBBLING WITH EXCITEMENT

High capacity frothing is finally here. We've combined the volume of our FourSide jar with an innovative, stainless steel frothing blade. The result is a quick, effective way to froth or aerate liquids.

# FROTHING JAR™

OPTIONS

CLEAR

## ROOM TO BREATHE

2 quarts of total volume provides a huge capacity for producing frothed liquids and foam. Instead of repeatedly creating single servings, you can now produce in batches and serve several customers at once.

## WAVE OF THE FUTURE

Our stainless steel blade features a “wave” bend which enhances the frothing capability—easily doubling the volume of many liquids. The blade works great for cold foam, whipping cream, hot chocolate, syrup and more!

## VIEW FROM THE TOP

Blendtec's innovative frothing blade

LID OPTIONS

## LATCHING LID

Preferred for non-sound enclosure models

## VOLUME

Total Volume = 2 Quarts  
Starting liquid volume = 32 ounces

## BLADE

2-7/8 diameter 300 series stainless steel blade with “wave” bend

## USAGE

Quick and effective way to froth or aerate liquids

NSF APPROVED
